

Omega SPLUS Protector

1/4

Description

Plastic protector for omega supports, in red, providing maximum protection to the installer in the installation of trays. It acts as a cover for the final protection of the support, avoiding chafing and cuts during the installation and maintenance process.

Advantages

Click system of rapid push fit assembly. New design that also allows stacking of the supports and packaging optimisation.

It is provided free of charge with each support. Included with omega SPLUS, omega ceiling , suspensions and omega pendants.

Improve the finish of the installation and protect the installer.

CE conformity to directive 2014/35 / EU.

Made of red plastic.

Applications

Suitable for the protection of the ends of omega SPLUS brackets for the support of cable trays in electrical and / or telecommunications installations.
