Beam Clamp Hanging Assembly

Description

Metal clamp for beam mounting with different positions and angles for Rejiband® wire mesh trays and Pemsaband® sheet trays. Made of steel and various Protection Systems.

Advantages

Installation of ceiling mounts on a beam.

Its load capacity depends on the position and the angle at which it is placed.

Connection in different positions allowing for the vertical adjustment according to the angle or inclination of the beam.

CE conformity to directive 2014/35 / EU.

Available in PG and GC protection system.

Applications

Suitable for the installation of ceiling mounts from beams for Rejiband® and Pemsaband® trays for the conduction of electrical and telecommunications wiring in public buildings, infrastructures and civil works, industrial facilities and the tertiary sector.
