Fixation + Block

Description

Kit consisting of fixing + block for Rejiband® wire mesh trays, Pemsaband® sheet trays and other items such as luminaires, conduits, air conditioning, signalling, etc. This Spiderband® suspension system consists of a cable with a ceiling fixing screw at one end and a self locking block. Available with M6x20 or M8x20 bolts, lengths of 1, 3 and 5 metres and maximum load of 10, 45 and 90 kg. Made of steel and with EZ Protection System.

Advantages

Optimised design for quick and easy use. Installation savings in both material and labour.

Allows direct fixing to the ceiling using M6x20 or M8x20 screws. Fixing included.

Quick and direct fixing of Rejiband® wire mesh trays and Pemsaband® trays, together with other carabiner and tray suspension items.

CE conformity to directive 2014/35 / EU.

PG protection system (standard EN-ISO 2081), silver colour, suitable for indoor installations. Corrosion resistance class 3.

Applications

Suitable for support by cable suspension with direct fixing to the ceiling of Rejiband® wire mesh and Pemsaband® sheet trays, as well as other items (luminaires, pipes, air conditioning, signage, etc.). Recommended for indoor installations.
