Description

Plastic part, with Click system, for assembly in the Rejiband® tray that facilitates the output of the wiring without causing damage or kinking of the cables. Specially designed for the output of telecommunications cables and/or fibre optics and protects the curvature of the cable with a bending radius of <50 mm.

Advantages

Fixing by quick mount click system.

Allows the output of cables in a different direction or bypass in the correct way.

Very versatile piece, quick and easy to install.

It prevents damages and any possible deformation in the cables.

Protects the radius and curvature of the cable.

Applications

Best option for the cable output from the Rejiband® tray and used mainly in telecommunications wiring, fibre optic and electrical cabling.
