PEMSABAND Couplers

25/04/2024 1/4

PEMSAband Riser / Dropper

Description

Connector for joining between two sections of Pemsaband® tray of heights 35 and 60 mm. Thanks to it's articulation it allows for the creation of level changes between two sections of Pemsaband® trays with just the use of screws. Manufactured in steel and available in GC and PG Protection Systems.

Advantages

Its unique design allows the articulation of different sections using only 4 pieces.

Connection between two tray sections at different levels.

Electrical continuity guaranteed according to standard IEC61537.

Available in PG and GC protection systems.

Applications

Suitable for joining straight lengths of Pemsaband® One perforated and solid tray of widths 300-600 mm, for the Support, management and distribution of Electrical and/or telecommunications cables in public buildings, infrastructures and civil works, tertiary sector and industrial applications.
