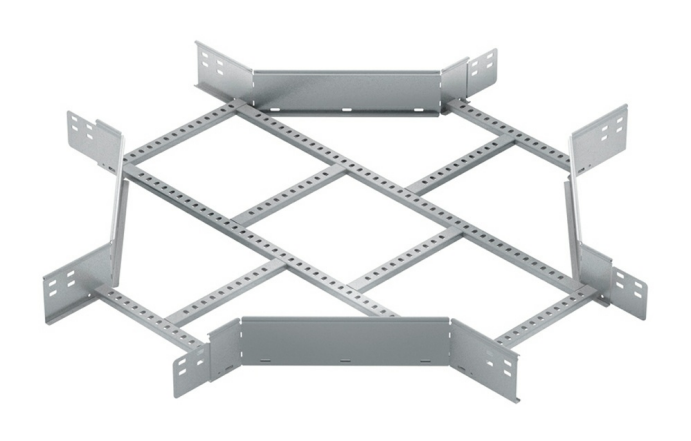
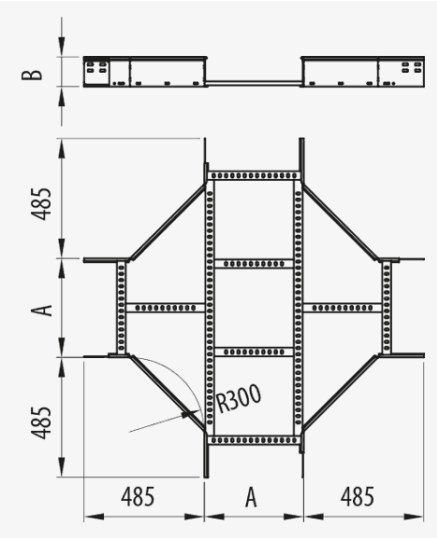
Crossover MEGAband





Description

Metal accessory for the creation of crossovers between two lines of Megaband® ladder. Quick connection assembly using the click system. Made of steel, available in different sizes and Protection Systems. Bending radius 300 mm. Check availability of 600 mm radius.

Advantages

Connection to ladder by rapid assembly Click system. Only the Megaband® M8 joint kit or M8 nuts and bolts required

Curved safety edge which offers maximum protection.

Divides the electrical installation from one to three different lines.

Electrical continuity guaranteed according to standard IEC61537.

Available in various protection systems: EZ, GC and stainless steel AISI 304 and AISI 316L.

Applications

Suitable for the creation of Crossovers with Megaband® Ladders in the conduction of cables in electrical and telecommunications installations in public buildings, infrastructures and civil works, industrial facilities, tertiary sector.
