Description

T-shape metal part for Pemsaband® and Inducanal® trays. Of 60 mm height, Width 100 mm, With PG protection system, PG3 finish. It enables the construction of a T-shaped junction at any point, although the trays may have different widths. Quick connection assembly using the Click system without couplers. Made of steel in various sizes and Protection Systems.

Advantages

Side flanges have the same profile as the straight section of the trays thus forming a continual view of the installation.

It has pre-formed holes in the sides to allow for the connection of fittings and conduits for the exit of cables.

Available in all sizes and protection systems: PG, GC and stainless steel AISI304 and AISI316.

The PG protection system is supplied flat for later assembly and provides savings on transportation and storage by reducing its volume.

Assembly by means of the quick-connect click system without the need for couplers. Patented Universal System that has holes compatible with the connection to other sheet metal tray.

Applications

It is used to create a junction at any point between Pemsaband® One perforated and solid trays of different widths for the Support, management and distribution of Electrical and/or telecommunications cables in public buildings, infrastructures and civil works, tertiary sector and industrial applications.
