Part Clamp 60x60-2

Description

M6x18 fixing kit for connecting the Rejiband® 60x60 mm grid tray with double wire on the base. Formed by two pieces of a Phillips head bolt and plate that fits over the rods. Manufactured in Steel and available in various Protection Systems.

Advantages

The screw is separate to the plate allowing direct manipulation with a tool and easy installation.

The shape of the plate fits precisely on the double rod at the base of the tray. Maximum resistance.

Easy connection on 41x21 mm and 41x41 mm channels by using an additional M6 channel nut.

Conforms to IEC 61537 and CE Conformity to Directive 2014/35/EU.

Wide range of protection systems: EZ, BC, GC, BK8 and stainless steel AISI 304 and AISI 316L.

Applications

Suitable for the connection of Rejiband® trays of 60x60 mm with double rod in the base directly on to a base or facing or directly to 41x21 mm or 41x41 mm channel for the routing, transport and distribution of cables in electrical installations and / or telecommunications in civil works, tunnels, car parks, public buildings, shopping centers, data processing centers, large infrastructures, airports, subway lines, trains, tertiary sector and industrial applications.
