End Cover

Description

Metal cover used as an end closure for the Megaband® ladder system. Quick connection assembly using the click system, without joints. Made of steel, in various sizes and Protection Systems.

Advantages

Its unique design allows the closure and protection of Megaband ladder.

Safer professional finish.

Available in various sizes.

Applications

It is used as a closure on the end of the Megaband® ladder system for the protection of the installation. Applicable in the management of cables in electrical and telecommunications installations in public buildings, infrastructures and civil works, industrial installations, tertiary sector.
