Assembly Accessories 17/04/2024

Cover

1/8

Description

Solid metal cover designed to protect the straight sections of the Rejiband® wire mesh trays, Pemsaband® One, and Megaband® ladder. Snap fit mounting without the need of screws or fixings. It has an extended overlap at the end that improves the coupling and sealing of two straight sections of cover. Made of steel and available in various Protection Systems and sizes.

Advantages

Optimum adjustment on the metal trays giving them a greater protection.

Snap fit installation without any fixings.

It has a locking clip at the ends and a hole for a screw connection to close the cover so that it can only be opened with a tool

Secure vertical fixing. The lid remains fixed, even in a vertical position.

Applications

Recommended for the protection of electrical and telecommunications wiring housed in Rejiband®, Pemsaband® and Megaband® trays in electrical and telecommunications installations in public buildings, infrastructure and civil works, industrial installation or tertiary sector.
