Nemaband C Profile

Description

Nemaband® ladder with C profile and 41x21mm rungs in an alternating arrangement. Suitable for industrial installations and large spans where the load requirements are very high or where the design of the installation requires a greater distance between supports. Made from steel with GC Protection system.

Advantages

The 41x21 rungs are mounted alternately up and down to allow the fixing of the cables.

6 m long sections suitable for installations with large spans or distances between supports.

Tested with respect to the requirements and characteristics of the product standard IEC 61537 and CE Certificate in compliance with the low voltage directive 2014/35 / EU.

GC Protection System. Hot dip Galvanised with 85 microns of thickness. Class 8 according to IEC 61537.

20C load capacity classification according to NEMA VE1 Standard with safety factor 1.5. Please consult sizes.
