

Identification Plate

Description

Plastic part fixes on the Rejiband® wire mesh tray by means of the Click system and allows for the writing of the correct identification of the electrical installation. Nameplate has no text to allow for labelling by the user. Quick assembly using the Click system without the need of screws.

Advantages

Quick identification of the electrical installation.

No screws or other fasteners required.

Economical and easy to install.

Made of white plastic.

Applications

Suitable for electrical or telecommunication cabling installations, where the tray needs to be identified with labels to also include information on the types of cables and circuits.
