

Description

Cable gland with improved diaphragm closure system and NBR seal, head with flexible end for protection of the cable bending and an IP68 protection rating (10 bar) according to EN 60529. Available in metric thread from M12 to M63 and in thread PG7 to PG48 for various cable diameters. Manufactured in self-extinguishing polyamide 6 grey colour RAL 7035 and black RAL 9005. Industrial and special applications.

Advantages

UL Classified Certification. Certification CSA, GL, VDE, EAC, NF. CE conformance with the 2014/35 directive and the IEC 62444 standard.

It has flexible extension to protect the cable exit, allowing for the correct bending of the cable.

Made of self-extinguishing Polyamide 6. V0 fire resistance according to UL 94. Halogen free. Resistant to UV radiation, UL_f1 classification.

Improved diaphragm closure system with NBR inner seal.

Working temperature: -40°C to + 100°C. Protection index EN 60529: IP68 with 10 bar pressure for water immersion.

Applications

Its use is recommended for the protection of wiring and conductors with high sealing requirements in industrial installations, manufacture of OEM equipment and in industrial and marine applications.
