Description

Solid metal cover designed to protect the straight sections of the Rejiband® wire mesh trays, Pemsaband® One, and Megaband® ladder. Width 600 mm, With BK8 protection system, BLACK C8 finish. Snap fit mounting without the need of screws or fixings. It has an extended overlap at the end that improves the coupling and sealing of two straight sections of cover. Made of steel and available in various Protection Systems and sizes.

Advantages

It has a locking clip at the ends and a hole for a screw connection to close the cover so that it can only be opened with a tool

Available in various protection systems: PG, GC, BK8, AZ+ and stainless steel AISI 304 and AISI 316L.

Optimum adjustment on the metal trays giving them a greater protection.

Snap fit installation without any fixings.

If the cover is combined with the sheet metal tray, Pemsaband® One, it becomes an IP2X protected channel for perforated version and IP4X for solid version

Applications

Recommended for the protection of electrical and telecommunications wiring housed in Rejiband®, Pemsaband® and Megaband® trays in electrical and telecommunications installations in public buildings, infrastructure and civil works, industrial installation or tertiary sector.
