

### Description

Straight connector with surface fixing ring made of self-extinguishing polyamide 6, halogen-free in grey RAL 7011 and black RAL 9005. Available in various diameters. Formed by two pieces and assembly is with the click system without the need for screws. It allows the rotation, but not any axial movement. Suitable for large diameter Macroflex® conduits.

### Advantages

CE conformity to the 2014/35 directive and the IEC 61386 standard.

It has a fixing ring with four holes for attaching the conduit to a flat surface.

Manufactured in polyamide 6. Self-extinguishing, halogen-free according to UNE/EN 60754-2 y UNE/EN 60754-1 and flame-retardant.

Formed by two pieces and assembly with click system without the need for screws. It allows the rotation, but not any axial movement.

Working temperature: -25°C to + 105°C. Degree of protection IP54 according to classification EN60529.

### Applications

Suitable for fixing large diameter Pemsaflex® and Macroflex® conduits for the protection of wiring and conductors in electrical installations of machines, tools, industrial equipment, robots, vehicles and special installations.
