#### Description

Channel with omega profile and universal connection system for Rejiband® and Pemsaband® trays. It allows you to configure different structures individually or with the help of omega SPLUS brackets to support wall or ceiling mounted tray with a threaded rod. Available in lengths of 1000, 2000 and 3000 mm. Made of steel in various Protection Systems.

#### **Advantages**

Click system allows fast connection of the wire mesh tray without the need of fixings. Greater economy and quick assembly.

Due to its dimensions and very versatile structure, it can be used in ceiling mounts as a suspension for several trays on the same line.

Performance is increased by 20% when used as a suspension or as a wall mounted rail with other brackets attached.

CE conformity to directive 2014/35 / EU.

Available in PG and GC protection systems.

#### **Applications**

Suitable for the creation of support structures for installations of Rejiband® and Pemsaband® trays in the management of electrical wiring and / or telecommunications in the tertiary sector.

#### **S** Protection System

**CU** - Copper electroplated

**PG** - Pregalvanised

EZ - Electrogalvanised

**BC** - Electrogalvanised Bichromate

**BK8** - High Resistance Coating

GC - Hot Dip Galvanising

INOX - Stainless Steel

PT - Polyester Paint

AL - Aluminum

LN - Brass or Nickel-plated brass

#### **M** Insulating materials

PC+ABS - Halogen Free Polycarbonate + ABS

PVC - Polyvinyl Chloride

**PP** - Halogen Free Polypropylene

PA6 - Halogen Free Polyamide 6

PA12 - Halogen Free Polyamide 12

PU - Polyurethane

PE - Polyethylene

PET - Thermoplastic Polyester

TPV - Thermoplastic
