

Heavy Duty Channel 41x21

1/5

Description

Heavy duty metal channel 41x21 mm and 2.5 mm thick for the support of Rejiband® wire mesh trays, Pemsaband® sheet trays and Megaband® ladder in cable management installations. It allows the construction of various types of suspended wall and support structures etc. Made of steel and with PG Protection System.

Advantages

Versatile way to simplify the installation of horizontal supports.

It facilitates ceiling installations, or other special assemblies, of sections of tray carrying heavy loads for cable management.

It has multiple holes that facilitate the connection possibilities.

CE conformity to directive 2014/35 / EU.

Available in several protection systems: PG, GC and AISI 316L stainless steel.

Applications

Suitable for the creation of support structures for indoor installations of Rejiband® and Pemsaband® trays and Megaband® ladder in electrical wiring and / or telecommunications in a dry atmosphere without contaminants.

Solutions

INDUSTRIA PETROQUÍMICA TUNELES. INFRAESTRUCTURAS
