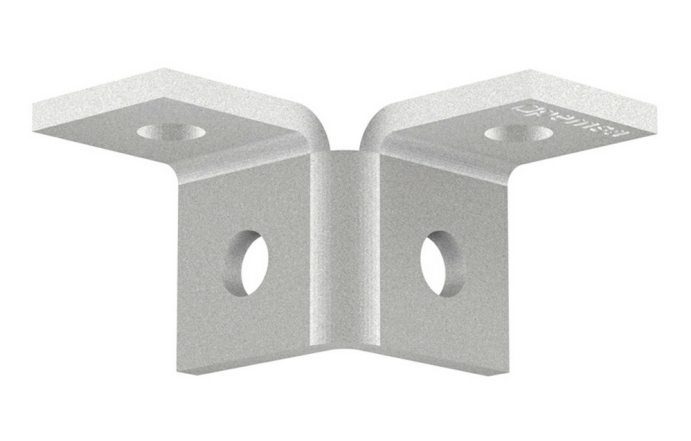
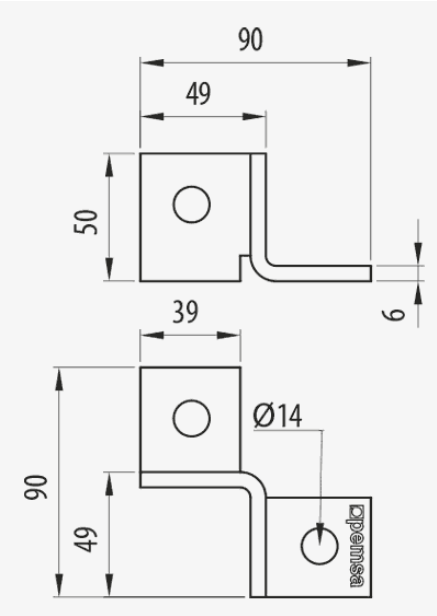
Double 90° Bracket n°15





Description

Metal double bracket N° 15 in a square L shape with an angle of 90° for the assembly of two channels that cross perpendicularly for support structures in the installation of trays. It can also be used as a vertical support for connecting channels to the floor or ceiling. Suitable for 41x21 mm and 41x41 mm channel. Made of steel and GC Protection System.

Advantages

It allows the perpendicular joining of three sections of channel. It can also be used connecting channel to the ceiling or floor.

Connect with 4 hexagonal bolts and M10 channel nuts.

Available for 41x21 and 41x41 channels.

CE conformity to directive 2014/35 / EU.

GC protection system (standard UNE-EN ISO 1461), suitable for outdoor installations and in aggressive environments. Corrosion resistance class 6.

Applications

Suitable for connection with 41x21 mm and 41x41 mm channels for the creation of support structures for tray installations in the conduction of electric cables and / or telecommunications in public buildings, infrastructures and civil works, industrial facilities and the tertiary sector.

Solutions
