Rejiband Cover Fixing

Description

Cover closure element on the Rejiband® mesh tray, which provides more security to the system in windy conditions or inclement weather conditions. Made of steel with AZ + alloy for high resistance to corrosion.

Advantages

Clamping piece to reinforce the fixing of the cover on cable trays.

Quick installation without the need for screws or fastenings.

Additional closure characteristics for the covers against wind and other atmospheric phenomena.

Conforms to IEC 61537 and CE Conformity to Directive 2014/35/EU.

Available in AZ+Protection System. High corrosion resistance.

Applications

Suitable for fixing Rejiband® trays to supports for cable management in electrical and telecommunications installations, industrial installations, infrastructure and civil works and the service sector.
