41x82 Cantilever Arm Pendant

Description

41x82mm vertical pendulum-type channel support for ceiling fixing of cable trays, electrical conduits and other heating pipe installations, A/C, fire protection systems, etc. It has a reinforced structure that makes it capable of supporting very high loads. Made of steel with GC protection system.

Advantages

Available in widths from 500 to 1000 mm depending on the protection system. It has wide fixing options.

The total length of the support is: (cable tray width + 55mm), that is, it has an additional measure of length to favor the separation of the installation from the facing or surface.

Protection index EN 60529: IP67.

Load values according to international standard IEC 61537.

Available in GC Protection System

In accordance with CE standard with respect to directive 2014/35 / EU.

Applications

Application as a vertical ceiling support. For supporting Cable Trays (rejiband®, pemsaband®, megaband®, among others) but it is also very useful for supporting electrical conduits and other heating pipe installations, A/C, fire systems etc.
